INTRODUCTION

This catalog contains the exploded views and replacement parts lists for serviceable components of Skytron surgical tables.

Locate, in the pictorial index, the assembly that requires replacement parts and turn to the page number indicated for the exploded view and parts list.

Each serviceable part in this exploded view is identified by a reference number. Use this number to locate necessary part information in the parts list adjacent to the drawing.

Always use the complete Skytron part number and description when ordering replacement parts.

Although current at the time of publication, Skytron's policy of continuous development makes this manual subject to change without notice.

Abbreviations: AR . . . As Required — opt. . . . optional — NS . . . not shown.

The optional side move base exploded views and parts lists are included on pages 39 through 48.
